EDITORIALS

The increasing importance of clinical coding 372

Andrew Tatham outlines some of the uses of clinical coding, which include health-care planning, resource allocation, clinical governance and audit, and emphasizes the need for hospital doctors to have an interest in improving coding systems.

The importance of information for frontline nurses 374

Jennie Negus highlights that providing high-quality care on a ward needs skilled clinical and operational leadership right at the point of care – information that is relevant, reliable and real time is crucial to achieve this.

CLINICAL NEWS

Including highlights of the American Society of Clinical Oncology meeting

SYMPOSIUM ON OBSTETRICS AND GYNAECOLOGY

Management of first trimester miscarriage 380

Willem M Ankum summarizes current knowledge about first trimester miscarriages from the clinician's perspective, discussing the epidemiology of spontaneous miscarriage, its natural course and clinical findings together with the diagnostic management and therapeutic options.

Catastrophic antiphospholipid (Asherson's) syndrome 384

Ricard Cervera and Ronald A Asherson stress the importance of understanding the basis and treatment of catastrophic antiphospholipid syndrome.

Electronic fetal heart rate monitoring 388

Hina Gandhi and Lucy Kean describe the benefits and criticisms of the use of electronic fetal heart rate monitoring during labour, the pathophysiology and care pathway based on the cardiocotogram features.

REVIEWS

Cardiac resynchronization therapy in chronic heart failure 392

Sanjiv Petkar, Matthew Luckie and Rajdeep S Khattar focus on the pathophysiological basis of cardiac dyssynchrony, and the rationale for resynchronization therapy in chronic heart failure.

Lisfranc injuries 399

David Loveday and Andrew Robinson emphasize the importance of early diagnosis and urgent orthopaedic referral of Lisfranc injuries to minimize the long-term consequences.

Epistaxis in adults: a clinical review 404

Louise Melia and Gerald McGarry identify the causes and correct management of epistaxis in adults, which can significantly reduce the potential morbidity and mortality.

EDUCATION AND TRAINING UPDATE

The reflective elective: using the elective to develop medical students' skills in career planning 409

Caroline Elton and Melanie Newport outline the incorporation of a reflective careers assignment into the elective module, to encourage career exploration.

CASE REPORTS

'Idiopathic' torticollis: have you ruled out a spinal tumour? 412

Debarata Bhattacharya, Kishor A Choudhari

A variant of Munchausen syndrome presenting as a gynaecological emergency 414

Stephen EO Ogbonmwan, Kenny Abidogun

Bilateral synchronous testicular torsion in a young adult 416

S Dindyal, P Kumaraswamy, A Khattak, P Sooriakumaran

SURGICAL ANNIVERSARIES
