EDITORIALS

Assisted dying: a time for change 432

Elaine Murphy states that the law needs to change to allow terminally ill, mentally competent adults the right to choose a medically-assisted death, subject to a range of safeguards.

Assisted dying: no change in the law is necessary 434

Patrick C Stone and Ollie Minton argue that legalization of assisted suicide or euthanasia for a few determined patients would be detrimental to the good clinical care of the majority.

Access to cancer drugs: local autonomy or local tyranny? 436

Jonathan Waxman calls for centralization of the process of drug approval to stop the postcode lottery and improve patient care.

CLINICAL NEWS

Including highlights of the European Congress of Rheumatology meeting

SYMPOSIUM ON CRITICAL CARE

Epidemiology of severe sepsis in the intensive care unit 442

Jean-Louis Vincent and Hakan Korkut Atalan look at some issues affecting the interpretation of epidemiological data for severe sepsis.

Managing acute on chronic respiratory failure: a guide to non-invasive ventilation 444

JJP Goldring and JA Wedzicha outline the management of acute-on-chronic respiratory failure, a condition associated with high mortality rates, using non-invasive ventilation.

Prevention of acute kidney injury 450

Stephan Brincaat and Rachel Hilton discuss current interventions to prevent acute kidney injury and review the evidence base for each.

REVIEWS

Anal fissure: a review 455

D Wray, S Ijaz and S Lidder highlight the cardinal points in the aetiology, pathogenesis and treatment of anal fissures.

Assessment and management of post-traumatic haemarthrosis of the knee 459

Daniel Shaerf and Ashis Banerjee give an update of current recommended assessment and management of post-traumatic haemarthrosis of the knee, and discuss the pros and cons of arthroscopy and magnetic resonance imaging.

Systemic sclerosis: an update for clinicians 464

Ariane L Herrick discusses the diagnosis and subtyping of systemic sclerosis, and details the major clinical features and their management, emphasizing the importance of early diagnosis and assessment.

SURGICAL ANNIVERSARIES

Joseph Towne, master modeller in wax 471

Harold Ellis

EDUCATION AND TRAINING UPDATE

Using assessment to drive learning by linkage to foundation year 2 appointment 472

Robert G Palmer, Jonathan Howes and Andrew Whitehouse discuss the results of a study which used assessment during foundation year 1 training to allocate foundation year 2 posts to trainees.

CASE REPORTS

Isolated olfactory nerve agenesis 474

Andrew J Carswell, David Whinney, Nick Hollings, Philip Flanagan

Recurrent facial nerve palsy caused by a facial cyst 475

Konstantinos Michalopoulos, Yogesh Bajaj, David R Strachan

Multiple cranial nerve palsies as a result of perineural invasion by squamous cell carcinoma 476

Weng Onn Chan, Simon Madge, Thomas J Dodd, Braden Higgs, Garry Davis

Silent sinus syndrome: a cause of enophthalmos 478

R Vaidyanath, R Kenningham
